

## Wilder Mind

Mumford & Sons

It's in my blood, it's in my water  
You try to tame me, tame me from the start  
When the din is in your eye, flash your flesh  
Desperate for a need to rise

With a silver crystal on  
How well you used to know how to shine  
In the place that's safe from harm  
I had been blessed with a wilder mind

You can be every little thing you want nobody to know  
And you can try to drown out the street below  
And you can call it love  
If you want

Beholden now I find myself awake  
Waiting on the edge again  
You sleep so sound with your mind made up  
Drinking from your cup of broken ends

With a silver crystal on  
How well you used to know how to shine  
In the place that's safe from harm  
I had been blessed with a wilder mind

You can be every little thing you want nobody to know  
And you can try to drown out the street below  
And you can call it love  
If you want

But I thought we believed in an endless love (2x)
