

## By Her Side

Mundy

Cats and dogs falling down from heaven,  
and i'm drenched right through to the bone,  
splash! a car bursts a puddle,  
is there such a thing in this city as a payphone?  
the woman i love she knows i'm trying  
and she loves me deep inside,  
she's got to give me a hard time  
just to keep me by her side  
by her side...  
i love staying out all night,  
hanging out with all of the boys,  
i never get home quiet on time,  
and i'm not that good at makin' up lies.  
the woman i love she knows i'm buying  
into a great divide,  
she'd better give me a hard time  
just to keep me by her side  
by her side...  
i gotta get home early,  
because my head's beginin' to tingle,  
the conversation is gettin' scary  
'cause all of the boys are single  
by her side...
