

# Follow Me Down

Mungo Jerry

Out in the streets, out in the fields  
Over the hills and the valleys  
Up on the mountains, up through the clouds  
Yeah, I'll take you where I'm going

Far from the taste, far from the smell  
Far from the noise of the city  
I'll take the fast train, far from pollution  
I'll take you where I'm going

Follow me, follow me, follow me down  
Follow me down, follow me down  
Girl, follow me down

A home we will build up on the hill  
We'll leave all the plastic and phony  
Make love every hour, we can get high  
Yeah, I'll take you where I'm going
