

Authority Complex

Municipal Waste

I never cared about what you've been taught
Or concerned with the things you bought
When you talk down it just makes no sense
Because I'm not listening to begin with

Pent up aggression
Built through the years
You were pushed around in school
And faced with all your fears
Passive behavior
Replaced with a complex
To regulate and conquer
Whoever puts you to the test

You think you're in charge
But it's all in your head

If it's your goal to have the upper hand
You should contemplate a better plan

Pent up aggression
Built through the years
You were pushed around in school
And faced with all your fears
Passive behavior
Replaced with a complex
To regulate and conquer
Whoever puts you to the test

There's no one left to boss around
This power trip has just been shut down
Shut down!
