

## Toxic Revolution

## Municipal Waste

Rising from the streets  
Screams of pain  
The sewers heat  
Something's here to kill you  
It's under your nose  
The sounds of destruction  
And here show it goes  
Underneath the sewer  
Lies an ever flowing stream  
Of toxic revolution  
To destroy everything!  
Look and see the scorched earth  
Look into the sky  
The Waste is fucking coming  
Better kiss your ass goodbye  
Violent revolutions is circling around  
Churches and police stations burnt to the ground  
WASTE THE FLAG  
EAT THE DEADSTREETS  
SLIME GREEN  
SEAS BLOOD RED  
Toxic youth will rise and claim this world  
Once and for all!
