

Drug Me to Hell

Murderdolls

Sobriety's so far away from me
I don't want no part of it
I'm following my dreams

I've got no reason for the things that I do
don't care what's right or wrong
don't care about you
I need a fix to fuel my appetite
the boulevard of drugs is the path I walk tonight

So drug me baby, drug me baby
so drug me baby, drug me to hell

Cocaine, Meth, Xanax, and Ecstasy
get used to my abuse now motherfucker
I'm following my dreams

I've got no reason for the things that I do
don't care what's right or wrong
don't care about you
I need a fix to fuel my appetite
the boulevard of drugs is the path I walk tonight

So drug me baby, drug me baby
so drug me baby, drug me to hell
