Drug Me to Hell

Murderdolls

Sobriety's so far away from me I don't want no part of it I'm following my dreams

I've got no reason for the things that I do don't care what's right or wrong don't care about you
I need a fix to fuel my appetite the boulevard of drugs is the path I walk tonight

So drug me baby, drug me baby so drug me baby, drug me to hell

Cocaine, Meth, Xanax, and Ecstasy get used to my abuse now motherfucker I'm following my dreams

I've got no reason for the things that I do don't care what's right or wrong don't care about you
I need a fix to fuel my appetite the boulevard of drugs is the path I walk tonight

So drug me baby, drug me baby so drug me baby, drug me to hell
