

# Exogenesis: Symphony Part 1

Muse

Aping my soul  
You stole my overture  
Trapped in God's program  
Oh I can't escape  
Who are we?  
Where are we?  
When are we?  
Why are we?  
Who are we?  
Where are we?  
Why Why Why?

I can't forgive you  
And I can't forget  
Who are we?  
Where are we?  
When are we?  
Why are we in here?
