Jimmy Kane

Muse

Jimmy Kane can't sleep at night
Sex in pain
Keeps me alive

You can't confuse yourself
They make you know what else
You can't fake it
You will never make it
You can't confuse yourself
They make you know what else
You can't fake it
You will never make it
Yeah

You're to blame
For everything
Sex in pain
Keeps moving me
Keeps me

You can't confuse yourself
They make you know what else
You can't fake it
You will never make it
You can't confuse yourself
They make you know what else
You can't fake it
You will never make it
Yeah
