

Pink Ego Box

Muse

It's gonna be ok
Can't afford another day
At 50 bytes per second

I've never seen your face
I've never heard your voice
But I think I like it

When you instant message me
With a promise
I can feel it
I can tell you're gonna be
Just like me

My eyes are gonna strain
My heart is feeling pain
At 50 beats per second

I've never seen your eyes
I've never heard your lies
But I think I like it

When you instant message me
With a promise
I can feel it
I can tell you're gonna be
Just like me
Be
Just like me

You turn
You turn
You turn on me
