

Yes Please

Muse

Hooohooooha yes please HAHA!

I cannot sleep
There's too much noise in my head*
I cannot sleep
I want it here instead*

I never thought that this could come to this
I just wanna look at your face in peace now
You'll never miss
But I can

[Maniacal laughter]

I cannot keep
The shame that's clawed us out
I will not keep
Your shut-up, shut-up lies

I never thought that this could come to this
I just wanna live in bliss, in peace now
You will never miss
But I can

[More maniacal laughter]
