

Falling

Mushmellow

Just take my hand, take my breath
U never let me go again
Hold me tight, hold me straight
Wish I always feel the same
Love myself, it's in the past
Can't see anything but U
Look around, be my guest
Be my guest inside of me

I'm falling deep in your heart
me, I'm falling down

Never let me go, never let me fall
Everytime u're gone I lose control
See me on my knees, see me beterly breathe
Never wanna have this misery

Yeah Let them talk while we walk
Let them whisper any shit
Let them talk, smash the clock
Hold me tight and hold me streight

I'm falling deep in your heart
Streight I'm falling down

Never let me go, never let me fall
Everytime u're gone I lose control
See me on my knees, see me beterly breathe
Never wanna have this misery
