## **Never Let It Go**

## Mushroomhead

No I'll Never Ever Let It Go Caressing The Downfall Out Stretched Arms On Your Knees Crawl Filthy And Feeling Low Dancing In The Undertow The Cut That Always Bleeds But Never Shows Everyone Crawls To Someone Some Run To The Puppeteer And Volunteer To Become One But Who Pulls The Strings That You Are Attached To Who Pours The Gas That You Are The Match To? Strive For Perfection And Strike With Precision Soon It Blows Up In Your Face And The Smoke Blurs Your Vision But Now You're Fading Fast Maybe Your Time Has Passed Bound And Gagged As Your Dragged To The Typecast Jumping Back And Forth And Forth And Back Once More Oblivious To What It Is I'm Looking For Goodbye But I Cannot Forget It No I'll Never Ever Let It Go
