

You Want It, We Got It

Mustard Plug

When you got no place to go
And you know there's better things in life
You want it, we got it
Come to us, we got it figured out
Your solution, your medication
We have it, you need it

'cause you know we've done this thing before
Yeah ya know we're professionals
Tonight we're gunna wake the dead
Hey! Hey! Hey! Hey!
This time's even better than before
Bottoms up, we'll burn the place down
And you know the hour is happy

Everywhere, everyone they all agree
The price is nice, the product's guaranteed
You want it, we got it
So come around, no hesitation
Join your friends, you won't regret it
We have it, you need it
