

Alpha Male

Mustasch

I am number one
I lead this pack I won't back down
I push myself through snow and rain
And if you challenge me I'll give you hell

And all my enemies
The fear and hate destroying them
They try to hunt me down
But they will never ever ever find the den

I'm just playing mother nature's game
You surrender I'm an Alpha Male
I'm gonna get you babe

Now your time has come
I bring the beast out of everyone
The only way to save the day
Get down roll over and play dead

Nothing changes
It stays the same
You surrender I'm an Alpha Male
I'm just playing mother nature's game
I'm gonna get you babe
