

Do or Die

Mustasch

You lie awake, the mind's in overdrive
The sheets are made of steel
You feel like you are just about to die
And nothing's gonna heal
You are a no one on a one way ride
You just want to scream

Nothing seems to have a meaning
Why don't you try to leave the house
We were born to live our lives
But you just close your eyes

A sunny day is waiting outside
But you go back to sleep
The phone is ringing you don't give damn
Why can't they let you be
You are a no one on a one way ride
You just gotta scream

Nothing seems to have a meaning
Why don't you try to leave the house
Nothing seems to have a meaning
Close your eyes if you just want to die
