

## Down In Black

Mustasch

Don't take me out tonight  
I feel afraid of life  
You won't be needing me  
Cause I'm so sick and tired

I just wanna die  
I don't think that I'm alive

It's a long way back  
When you're down  
It's a long way back  
When you're Down In Black

Get down, take cover now  
I'm gonna bring myself to live  
I'll run, to get it on  
Into a place I've never been  
Blue sky and city lights  
Yeah I'm coming in

Used to be so slow  
I didn't know where I should go

It's a long way back  
When you're down  
It's a long way back  
When you're Down In Black
