

Down In Black

Mustasch

Don't take me out tonight
I feel afraid of life
You won't be needing me
Cause I'm so sick and tired

I just wanna die
I don't think that I'm alive

It's a long way back
When you're down
It's a long way back
When you're Down In Black

Get down, take cover now
I'm gonna bring myself to live
I'll run, to get it on
Into a place I've never been
Blue sky and city lights
Yeah I'm coming in

Used to be so slow
I didn't know where I should go

It's a long way back
When you're down
It's a long way back
When you're Down In Black
