

I'm Frustrated

Mustasch

I'm Frustrated
And here's where everything must end
So frustrated
And you thought you knew me well
I'm not crazy
Screaming and shouting, that won't help
'Cause I'm Frustrated
Please forgive me for what I said

I am absent minded, I don't know what I do
Where are my keys, where did I put that bloody phone
I even don't know how to find myself
I won't get no relief until I'm dead

I'm Frustrated
I am tormented by myself
And I hate it
Why can't I be like everybody else
I'm Frustrated
This is where everything must end

Light a candle for me, these patterns I must break
I must be strong instead of run away
I won't get my relief until I'm dead
I won't get no relief until I'm dead

This restlessness has made me to concede
What is wrong with me, why can't I fall asleep
I won't get no relief until I'm dead
I'll get my inner peace when I'm dead
