Nailed to Pain

Mustasch

I'm a loner and I'm living through my deeds All my life I have been fighting in the streets I can't stand if you don't practice what you preach I'm a nightmare who will haunt you in your sleep

I am standing in the rain No one wants to know my name I've been Nailed To Pain

What I have learned is that relations never last It kicks off well but usually ends up in a blast There's no point in searching errors in the past You just move out there and put yourself to grass

I am standing in the rain No one wants to know my name I've been Nailed To Pain

I'm the nightmare in your dreams Don't you want to know my name I've been Nailed To Pain
