

If you're satisfied with an endless drive, you're in  
It's the autobahn to the other side, for real  
In a week or two all your friends have turned into freaks  
Insanity and lunacy on wheels

Though you're travelling far, it's the redlight bars you see  
It's an autobahn to the other side for real  
The food you eat makes your body wanna scream  
Insanity and lunacy on wheels
