

Unsafe At Any Speed

Mustasch

We've been around for so long
The wheels of time keep turning
The hall of fame
Our final destination of this journey

Well I'm a man trapped in this band
And now I'm tour resistant
Believe me now cause I don't whine
But I want a careful ride

You will remember our name
Cause we'll lead the way
Don't you think that you're safe
We'll come for you again

It's been a hard day's night
To qualify for pole position
But as time goes by
Reality turns into fiction

Endless days and lonely nights
That's all that's left for me
If you're not buckled up you're
Unsafe at our speed

Rain is falling while we're boarding
I don't know where we are going
Rain keeps falling while we're boarding
We attend a never ending tour
