

Cast Down My Heart

MxPx

I know that you love someone else now
I try to forget you then I forget how
I can't bare to hear them play our song
My days are empty and oh so long

Tear me apart
Cast down my heart
Tear me apart
Cast down my heart

What's the use in trying?
It won't bring you back to me
Even though I feel like dying
This will make me stronger, eventually

We all have those dark days
Where you just don't know what went wrong
Let the past be the past
Every break needs a cast
To make it stronger
What doesn't kill us
Will make us stronger
