

Democracy

MxPx

Believing the lies defines american
they don't realize their ignorance and sin
democracy ain't real it's a fairytale
anarchy now then spend the night in jail
I won't pretend that it ain't wrong
I won't just go along
Humanity is diseased
and the sickness has increased
for the people by the people
Who's considered people anyway?
The rich get richer and the poor get poorer
So much for equal opportunity!
