Don't Walk Away

I need the comfort, That's in your arms, Squeeze and hold me tight, and keep me warm I need the passion, That's in your heart, Say you'll never leave and be apart

So don't walk away, Don't turn your back, If you leave today, My whole world would turn black, So don't walk away, Don't change your mind, It's time you took the chance, And put your hand in mine, So don't walk away

I need the glow of, Your darling face Accept this crown of love, And live in grace I need the colors, Painted in your mind Your beauty and your brilliance, So hard to find

So don't walk away, Don't turn your back, If you leave today, My whole world would turn black, So don't walk away, Don't change your mind, It's time you took the chance, And put your hand in mine,

You are my angel, Please don't be afraid You are my saving grace, My hearts first aid So don't walk away, So don't walk away

So don't walk away, Don't turn your back, If you leave today, My whole world would turn black, Don't walk away, Don't change your mind, It's time you took the chance, And put your hand in mine, So don't walk away Don't walk away So don't walk away
