

Falling Down

MxPx

You're only interested when our power's threatened
you're only paranoid cause you know what you're doing
you know what you've done and what you're about to do
the conspiracy to your inconsistency
could it be your spirit's dead?
Why do you run away when faced with these questions?
I know you know it
but you just won't say you built this conformist system
you built this state and now you're falling down
your education teaches us not to resist
subjects don't question kings
it disrespect, they slam you in the face with their fist
you'll do anything to keep from falling down!
