

## I'm OK, You're OK

MxPx

What's going on tonight? Is everything alright?  
I hope that nothing's wrong. I haven't seen you  
in so long.

I'm away, you're here to stay and I'm away and  
you're ok  
You're here to stay and I'm away, you're here to  
stay and I'm ok

What exactly do you do, when I'm not with you?  
What exactly do you say, all the time that I'm away?

You tell me nothing's wrong  
Seems like I've been gone oh so long  
Nothing seems to have changed  
Yet the familiar things seem all so strange
