

Lifetime Enlightenment

MxPx

You want something you take it
Can't hide from God can't fake it
He knows your heart he knows mine
You've only got a lifetime

Have you no integrity?
Your wasted mind, your apathy
Same old high school mystery
You're too dumb & blind to see

You've already made up your mind
You don't care you don't wanna find
The truth will hit you like cement
Too bad too sad it's too late for your enlightenment
