

Stay On Your Feet

MxPx

Say hello to the sunshine
And goodbye to the rain
Keep it moving in straight lines
Right in and out of the pain
Leave all your worries behind you
And let the good times return
You can have all your dreams now
And get what you deserve

You'll take the twists
You'll take the turns
You'll make mistakes, but eventually learn
This life is bitter but also sweet
This life gets rough girl, stay on your feet

Stay on your feet
Take it as it comes, but don't retreat
Stay on your feet
You gotta take a risk and face the heat

Like going south in the winter
Then back up north in the spring
You do what you can to survive this
You'd do anything just to feel something
So many memories haunting
Burrowed down deep in your mind
Slow down the noises that dull you
And leave it all behind
