

## Time Brings Change

MxPx

Why can't things be the  
way the used to be?  
Why can't I feel the way; I  
used to feel? Back in the  
days when it all worked  
out was it all in my  
mind? And now it won't  
come out when I don't  
think I'll get by when I  
fell that I need to cry it  
hurts me even more to  
think how it was before  
no you first is how it  
always went the simple  
things made us content  
we don't need nothin'`  
except and the one true  
God that keeps us  
together I hate time!  
Cause time brings  
change! And change  
makes me start all over  
again I guess I can work  
with time but does time work out
