

# The Process

## My American Heart

You've got this process figured out.  
(You've got this process figured out.)  
You've lost the love for yourself now.  
Just know that I'm telling you to watch your back  
and hold your breath cause  
Denial never spoke so loud, so loud.

Take all my self worth away (take all my self worth away).  
Just cold with no love in my veins (in my veins)  
So show me how to feel nothing.  
Show me how to feel saved.  
And I promise I will do the same, do the same.

You've got no self control, no meaning in your makeup.  
You are the reason for the broken hearts you've made up.  
You've got this process figured out.  
You're not so picture perfect,  
You're not so picture perfect,  
You're not so picture perfect now.

Take all my self worth away (take all my self worth away).  
Just cold with no love in my veins (in my veins)  
So show me how to feel nothing.  
Show me how to feel saved.  
And I promise I will do the same, do the same.

You've got this  
This process  
So figured out

Take all my self worth away.  
Just cold with no love in my veins (in my veins)  
So show me how to feel nothing.  
Show me how to feel saved.  
And I promise I will do the same, do the same.
