

## This Won't Stop

My American Heart

Just shut your eyes  
and I won't bleed till you're sleeping  
Lock the heart behind as we are all smiling

Like a rush in the rain  
but I'm not freezing  
But this is easier for me to breathe

We are your name in vain (this won't stop)  
while ripping my heart out

And I'll repeat those words you said  
last night you wished  
they'd never left your lips

And I'll repeat those words you said  
last night you wished  
they'd never...
