

## Don't Ask Why

My Bloody Valentine

See all your sorrow  
But be happy tomorrow  
From the back of my mind  
I was searching and I

From the look in your face  
I believe it's not too late

See where you are  
When did we go that far  
From the things that we said  
I was wishing us dead

Turn around to the fool  
Who believed, don't ask why

From the look in your face  
I believe it's not too late

(Pillow) pretend  
That I do not defend  
My own love in the back  
Need no question to ask

If you need to see  
The real, don't ask me

From the look in your face  
I believe it's not too late
