

Who Sees You

My Bloody Valentine

One day someone can carry me to the one
Who sees you
Rain these lanes far away on my way
I would rain on the
How could it be I could love under such low
That your nightmares

Rain your bikes to the moon until
You hear me here
Till we'll wait and I'll stay
Over here

Who will you chose
Say goodbye to this world
And I'll come

Look at you so I come to you
To see
Hold me down when I do
How does it feel
Don't turn back on you
