## **Goodbye Forever**

## My Brightest Diamond

Oh to lose by fire, by flame, this old feeling Insignificance
Insignificance

Then I can hear you brighter than the stars Your voice is a razor blade I can see you shining through the sun You're so mysterious

Lose the hold as I throw this with a goodbye forever Fear of exposure Fear of exposure

Then I can hear you brighter than the stars Your touch is lightening I can feel you prickling like a thousand shark teeth Prickling like a thousand shark teeth, closer to me

Come closer to me
Come closer to me
Come closer to me
Come closer to me, still
