

Love Crime

My Darkest Days

Some say that love is blind
Some lovers live in lie
She meant the world to me
I've found my one and only
Felt no guilt inside
Can't tell wrong from right
She stole my soul from me
Her heart is cold and empty
Turn around and run away

Get out alive before she goes and makes another victim of the love crime (of love crime)
I paid the price so she could go and make another victim of the love crime (of the love crime)

Her smile you can't resist
There's poison on her lips
Disguised as an angel
One night could be fatal
Next victim on her list
Gets caught with just one kiss
You'll never see it coming
To her love is nothing
Turn around and run away

Get out alive before she goes and makes another victim of the love crime (of love crime)
I paid the price so she could go and make another victim of the love crime (of the love crime)

(2x)

Turn around and run away
Get out alive before she goes and makes another victim of the love crime (of love crime)
I paid the price so she could go and make another victim of the love crime (of the love crime)

She'll get away with it
And take the safety off
She'll go and make another victim of the love crime
