

# They Tried To Kill Chivalry, But We Brought It Back

My Favorite Highway

Let me know if you want to be alone  
Can't find your heart, whoa  
Improve what you aren't  
And fake what you can, whoa

Take this, baby, embrace this  
I need you like I hate this  
Why can't you face this?  
Who said that we were over?  
You call it closure  
But you don't even know her  
Pulling me closer

All my friends are sinking slowly

Take me, bend me, no, break me  
I need you like your love  
I need your love, I need your love  
And you should know by now  
You need to take a deep breath before you let it out  
Hey, there you are  
You want to talk about devotion  
Keep this in motion  
It's easy when you just drown out the lights  
And use what you ignore

You'd say anything to get inside my head

Debut the situation and beg me to wait for this  
But you refuse me  
'Cause see, I am not your family  
It doesn't matter if we're closing all the doors  
If you can stand for anymore
