

## Walking On A Wire

### My Favorite Highway

I'm still here, still around  
You put my picture face down  
I count the hours, count aloud  
You count me out  
And you send your signals (Awoah-oh)  
So I send flowers to the door  
No I can't walk through anymore (Oh-oh)

Never meant to break your back  
Never meant to start a fire  
Never meant to wound your head under the water, my love  
When you get this call me back  
I'll be walking on a wire  
Hoping you can take me back in spite  
For everything I've done

Put on your favorite dress  
I'm such a mess, I drag like a cigarette  
You didn't have to look so nice  
To get me thinking twice  
I've never seen you walk so proudly  
I've never seen you sleep so soundly  
I'm crying and trying to just quit  
Because you just won't do a thing

Never meant to break your back  
Never meant to start a fire  
Never meant to wound your head under the water, my love  
When you get this call me back  
I'll be walking on a wire  
Hoping you can take me back in spite  
For everything I've done

We can't go back, we can't back to where we started  
I can't let back, I won't let back  
Leave us lonely hearted  
I'd rather fight than sleep tonight  
Please don't roll your eyes love  
I'm not about to let you go

Never meant to break your back  
Never meant to start a fire  
Never meant to wound your head under the water, my love  
When you get this call me back  
I'll be walking on a wire  
Hoping you can take me back in spite  
For everything I've done  
(We can't go back, we can't go back)
