

Savage Sixteen

My Life with the Thrill Kill Kult

Baby blue heart
Where are ya goin' now?
Caged and sober in medication candyland

You are the night-bird
You like it wild
Leave the moment, untie the rope
You know the dope

Snake pit mix-up addict imitation
Classic model, strutting down the neon drag
Savaged sixteen

Third-rate yes-men, deadly stroking fate again
Crushing-head king-size pussy
Cinderella cries...
