

Last Day In Paradise

My Passion

You
And me have been here twice
This is our last day back here in paradise
We will watch you disappear
Come come lover
Come lover
Come lover
Come here

Dreams at night
Mess with me
I guess you're right
Let's see

One more miracle
One more golden man
The face
The figure
The fame
All disappear
The face
The figure
The fame
Are not for you

Go
But don't take my advice
You do not belong down here in paradise
We will make you disappear
Come come lover
Come lover
Come lover
Come here

Dreams at night
Mess with me
I guess you're right
Let's see

One more miracle
One more golden man
The face
The figure
The fame
All disappear
The face
The figure
The fame
Are not for you
