

Thanks For Nothing

My Passion

Theres a hole inside your head
Where I keep the words we said
And now the angers dead
Theres a world outside instead

Life is a drain whichever way you look
A masochistic pattern lover you took
Life is the same whichever way you look
A masochistic pattern lover you took

You are evil now
Love you even now
'Cause you're evil now
Love you even now

Theres a hole inside your head
I'm dreaming of a world outside instead
Instead

All been done
Before you came
I've been there
And back again
Run your fingers
Through my hair
Another year
Make me insane

Life is a fashion magazine of woe
And I wear black 'cause it's the way to go

You are evil now
Love you even now
'Cause you're evil now
Love you even now

Theres a hole inside your head
I'm dreaming of a world outside instead
Instead

All been done
Before you came
I've been there
And back again
Run your fingers
Through my hair
Another year
Makes me insane

Life is the same whichever way you look
