

Burn The Witch

My Ruin

I see her coming filled in her disease
Don't bother runnin', she sees me
Her smile is thick, so sick there ain't no cure
I never wanna be just like her, no

Burn, burn, burn the witch

I watch her leave, still filled with her disease
Don't give a fuck what she thinks
Her hands are clean but no one here believes
So full of shit that she stinks

Burn, burn, burn the witch
Burn, burn, burn the witch

The antithesis to everything she is
The enemy, I am her nemesis
Miss Ugliness will stick and linger
So I must focus on my middle finger

Burn, burn, burn the witch
Burn, burn, burn the witch

I see her coming, I see her, I see her
I see her coming, burn the witch
I watch her running, I watch her, I watch her
I watch her running, burn that witch
