to meet them...  
Keep it going but you ain't for real  
You ain't nothing but dragon steel!

Put the hammer down - gonna ride right over you now...  
Put the hammer down - gonna ride gonna ride right over...  
Put the hammer down - gonna ride right over you now...  
Put that hammer down!

Happened so fast that it must be fate - one day you're here next  
day replaced!  
Your face - two sided - we know you and you know you can hide it...

Keep it going but you ain't for real  
You ain't nothing but dragon steel!

Put the hammer down - gonna ride right over you now...  
Put the hammer down - gonna ride gonna ride right over...

You look so bloated in your self important fame - they see your  
photos but nobody knows your name!  
Take your dumb blonde cocaine whore feed her lies and sell her
