

## Sunday

### My Sister's Machine

I live for Sunday  
my full circle's coming round  
my love for moonbeams  
a living light, I hear no sound  
watch Billy hit the roof  
he hears voices in the walls  
watching Billy come unglued  
as sanity peels from your mind

I live for Sunday  
my full circle's coming round  
my love for moonbeams  
a living light, I hear no sound  
oh, not now, there's Billy  
with a six foot monkey on his back  
not a sin could catch his mind  
when four beam days our moon attack

you live  
my loving light is coming round  
no way  
my loving light is coming round  
Billy's gonna mow you down

I live for Sunday  
my full circle's coming round  
my love for moonbeams  
a living light, I hear no sound

you live  
my loving light is coming round  
no way  
my loving light is coming round  
you live  
my loving light is coming round  
no way  
my loving light is coming round  
Billy's gonna mow you down
