

Lights Go Off

Mya

"Hey what's up it's Mya"

??

"Hey yo, I know you're in the studio doin'..."

Whatever is you do,

But um, I called you cuple times and you need to call me back

So real, call me back"

(Lights go off, lights go off)

I know sometimes you wonder where I'm at,

Where I be, what I'm doin'

And if I'm givin' your love away

I'm not like none in your past

So it hurts when you ask

Who I'm with

Like you're questioning my loyalty

Just 'cause I don't pick up

Don't mean I'm doin' you wrong

Maybe I'm busy

Or the phone ain't ring at all

But you know I'll hold you down

Tonight it's goin' down

Stop all your questions

I'mma show you that it's yours

The moment them lights go off

Oh baby, baby

That's when I start to breakin' down

You got my attention now

The moment them lights go off

My baby, baby

That's when you hear them ooos and ahhs

That's when I wanna take you over

The moment them lights go off

Sweet baby, baby

Boy you don't have to worry none

We about to make love, love

When the lights go off then I turn on

Don't stop, don't stop we both grown

Lights go off, lights go off, lights go off, lights go off

Now I might be goin' through one of my moods

That don't mean that I'm mad at you

Just because I got things to do

Don't mean that I ain't thinkin' of you

Ain't gotta trip 'cause I got male friends

You the one that I lay down with

And please believe that I'm always here

(And boy I promise you I'm so sincere)

When the lights go off I'll be everything you need

That's when I let go and give you every part of me

[chorus]

The moment them lights go off

Oh baby, baby

That's when I start to breakin' down
You got my attention now
The moment them lights go off
My baby, baby
That's when you hear them ooos and ahhs
That's when I wanna take you over
The moment them lights go off
Sweet baby, baby
Boy you don't have to worry none
We about to make love, love
When the lights go off then I turn on
Don't stop, don't stop we both grown
Lights go off, lights go off, lights go off, lights go off

Baby tonight you'll see what I'm about
So lay your worries down
And what I'mma give is only for you
I'll prove it to you now
No other man could ever earn my love no
Turn down the lights so I can show you it's yours
100% baby from my head to my toes
Every inch of me is all for you
So come take it 'cause it's yours

The moment them lights go off
Oh baby, baby
That's when I start to breakin' down
You got my attention now
The moment them lights go off
My baby, baby
That's when you hear them ooos and ahhs
That's when I wanna take you over
The moment them lights go off
Sweet baby, baby
Boy you don't have to worry none
We about to make love, love
When the lights go off then I turn on
Don't stop, don't stop we both grown
Lights go off, lights go off, lights go off, lights go off

I'm your woman baby yeahh
I'm your woman baby
I'm your woman baby
You dont ever have to wonder no
When the lights go off then I turn on

"Hey ya'll, I think we got what we need"
"Alright I'm coming up"
"Let's take on this some back"
"Hold up, just give me one secone I need to call my marry quick.
Umm...
Baby pick up..."
"Hello?"
"Oh I'm sorry, must hang the wrong number"
"Hello?"
"Umm... who is this?"
"Who is this calling on the phone on 5 in the morning?"
"Yeah, oh, excuse me what did you said?
Just put J on the phone and stop playing.
Uh, yo I know it's true, the number just hung up on my face.
Unless she don't wanna pick up the damn song.
Yeah alright.
Blushit.

"Where are you going?"
