

Head in the clouds  
Light as a feather, weightless  
Made love to my mind  
Now my body's elevated  
I'm no longer the same  
I feel me changing  
You're just a big bowl of temptation  
Now I'm contemplating  
I don't know what the hell I'm thinking  
One minute I was over you  
Now you've got me faded, faded  
Never thought that I'd get so involved, no

Now my guts are feeling tipsy and ready to fall  
For you  
Might as well take one hit of you  
Roll it, roll it up  
Might as well take on sip of you  
Pour it, pour it up  
Boy you...

You've got me on one (You do)  
You've got me on one (You do)  
You've got me on one (You do)  
You've got me on one (You do)

I don't know where my limitations went  
But I'm one one  
Feeling so strong and I can't shake it  
Just tell me that we've never  
Never gotta calm down, no

(2x):

Now my guts are feeling tipsy and ready to fall  
For you  
Might as well take one hit of you  
Roll it, roll it up  
Might as well take on sip of you  
Pour it, pour it up  
Boy you...

You've got me on one (You do)  
You've got me on one (You do)  
You've got me on one (You do)  
You've got me on one (You do)
