Mýa

Start a fight just to piss him off
Uh, I love when I make him go off
So then he don't answer none of my calls
None of my calls, then, then we break up

Later on, that's when I show up
Trench coat, under nothing at all
Then we gonna be making up that night

Even though we love to fight
We don't wanna waste no time
We show up and just apologize
No matter whos wrong or whos right

Just the two of us
He loves me and I love him
And that makes two of us
And we gonna get started as soon as I walk

Me on my baby, we on the same page
Oh, we be on the same page
Yeah, we be on the same page
We be on the same page, yeah

First ring, she gonna answer my call
Next morning she be waiting at the door
Standing there with nothing at all
Nothing at all, at all

But her bra and ask unfold
Shell tell you when the lights go off
It's gonna be on tonight

Even though we love to fight
We don't wanna waste no time
We show up and just apologize
No matter whos wrong or whos right

Just the two of us
He loves me and I love him
And that makes two of us
And we gonna get started as soon as I walk

Me on my baby, we on the same page
Oh, we be on the same page
Yeah, we be on the same page
We be on the same page, yeah

Oh, I needed you, already know what I want
Said I'd give it to you just right
Touché, can't nobody do me like you do, no
Were two of a kind
Like an open book, you read my mind
Though I love it more when I'm behind, behind

Just the two of us
He loves me and I love him

And that makes two of us
And we gonna get started as soon as I walk

Me on my baby, we on the same page
Oh, we be on the same page
Yeah, we be on the same page
We be on the same page, yeah
