

That's Why I Wanna Fight

Mýa

We fight all day, make up all night
Our love's up and down
It makes the mood just right
For us to do, what I love to
So if I pick a fight, you know what I'm up to....
Don't shake your head baby instead
Give into me this fight
You won't forget
I promise you when we're through
You won't hesitate to say I'm sorry boo

I just want to make up
'Cause I want you so much
That's why we have to stay
Getting into it, some days
Never endin' it
So don't get mad at me
Sometimes I get the strangest needs
That's why I turn to you, so you can
Handle it, baby, you're the man for it...

We gotta make up tonight
That's why I wanna fight you
Break the rules
So we can get it right
And I'll show you how I do
I wanna fuss and fight
Then make it up tonight

I just want to make up
'Cause I want you so much
That's why we have to stay
Getting into it, some days
Never endin' it
So don't get mad at me
Sometimes I get the strangest needs
That's why I turn to you, so you can
Handle it, baby, you're the man for it...

We gotta make up tonight
That's why I wanna fight you
Break the rules
So we can get it right
And I'll show you how I do
I wanna fuss and fight
Then make it up tonight
