

Cold War

Myka Relocate

Left out of sight, left out of mind
Left to create, my idol made of strength and devotion
Left to create, you're not apart, not apart
I've been waiting for so long, waiting for too long
Fighting for this cold war to end

I've been waiting for so long, waiting for too long
Fighting for this cold war to end

Left to dethrone these measures held against him wrong
Left to dethrone the lesser of two evils
You're singing through your broken teeth
Left to create my idol made of strength and devotion
Left to create, you're not apart, not apart

I've been waiting for so long, waiting for too long
Fighting for this cold war to end

I've been waiting for so long, it's been too long
Fighting for this cold war to end

I'm moving on, but you're the same
I'm moving on, push me away

I can not believe a single word
I can not believe a single word

I've been waiting for so long
I've been waiting for so long

I can see it in your eyes
I can see it in your face
I can feel it shake your breath

Shake your breath

Keep me here now
Keep me here now
Keep me here now

I've been waiting for so long
I've been waiting for so long
