Cold War

Myka Relocate

Left out of sight, left out of mind Left ro create, my idol made of strength and devotion Left to create, you're nor apart, not apart I've been waiting for so long, waiting for too long Fighting for this cold war to end

I've been waiting for so long, waiting for too long Fighting for this cold war to end

Left to dethrone these measures held against him wrong Left to dethrone the lesser of two evils You're singing through your broken teeth Left to create my idol made of strenght and devotion Left to create, you're not apart, not apart

I've been waiting for so long, waiting for too long Fighting for this cold war to end

I've been waiting for so long, it's been too long Fighting for this cold war to end

I'm moving on, but you're the same
I' moving on, push me away

I can not belive a single word I can not belive a single word

I've been waiting for so long I've been waiting for so long

I can see it in your eyes I can see it in your face I can feel it shake your breath

Shake your breath

Keep me here now Keep me here now Keep me here now

I've been waiting for so long I've been waiting for so long
